

## BLINK SOLAR

# 18v solar inverter

## Overview

---

What are solar inverters?

Solar inverters are devices that convert DC power to AC power. They are indispensable as many electronics work on AC, and the choice between AC or DC depends on the device's requirements.

What is the EG4 18kpv-12lv solar hybrid inverter?

The EG4 18KPV-12LV Solar Hybrid Inverter offers 18kW PV input, 12kW output, remote monitoring, and seamless grid-tie/off-grid functionality.

How many units can a solar inverter run?

With 18kW PV input and 12kW output, the inverter offers high energy handling and can parallel up to 10 units for expanded capacity. A 600V DC input and three MPPTs ensure optimal energy conversion and streamlined cable management.

What makes the 18K 2p a good inverter?

The 18K 2P supports more PV than any other residential inverter (over 40kW when utilizing AC coupled functionality). This power-house unit runs American engineered firmware, keeps your data stateside, and comes standard with a 10 year warranty. Don't rely on the grid, take control of your energy. Innovative. Simple. Secure.
