

## BLINK SOLAR

# 2 billion energy storage project

## Overview

---

Where is the US' largest solar & battery storage project now?

One of the US's largest solar + battery storage projects is now fully online in Mojave, California. Arevon Energy 's Eland Solar-plus-Storage Project combines 758 megawatts (MWdc) of solar with 300 MW/1,200 megawatt hours of battery storage. Eland 1 reached commercial operation in December 2024, and Eland 2 recently commenced full operation.

What is eland solar-plus-storage project?

Backed by \$2 billion in private capital, the two-phase Eland Solar-plus-Storage Project is capable of supplying 7% of Los Angeles's electricity. Combining 758 megawatts (MWdc) of solar with 300 MW/1,200 megawatt hours of energy storage, Eland can power the equivalent of more than 266,000 homes each year.

What is arevon energy's eland solar-plus-storage project?

Arevon Energy 's Eland Solar-plus-Storage Project combines 758 megawatts (MWdc) of solar with 300 MW/1,200 megawatt hours of battery storage. Eland 1 reached commercial operation in December 2024, and Eland 2 recently commenced full operation. The two combined comprise 1.36 million solar panels and 172 lithium iron phosphate batteries (LFP).

Will China develop new energy storage systems between 2025 and 2027?

BEIJING, Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure the stability of new-type power systems.
