# **300wh power station in China in Dominican-Republic**

## Overview

---

In October 2020, project developer Energas — previously known as CESP (Compañía de Electricidad de San Pedro de Macorís) — commissioned three 100 MW combined cycle units at the San Pedro.

Did ing stop financing new coal power plant in Dominican Republic?

ING stops financing new coal power plant in Dominican Republic, BankTrack press release, Aug. 1. 2018. ↑ Opositores critican colocación de bonos para terminar la termoeléctrica de Punta Catalina, Informativos Tele Antillas, 14 Jun. 2017. ↑ Dominican Rep. US\$500M bond aims to finish embattled power plant, Dominican Today, Jun. 13. 2017.

Could a water-based power plant benefit Santo Domingo?

A water-based power plant could be one very valuable asset. Estrella del Mar III offers a host of benefits to the people of lively Santo Domingo, with a more reliable energy supply, reduced LCoE (levelized cost of electricity), and less noise—residential housing is close to the power plant.

Does Santo Domingo need a power plant?

The steady flow of electricity can support both tourism and Santo Domingo's innovative start-up scene. Nobel literature laureate Mario Vargas Llosa described the Dominican "appetite for noise" in his book *The Feast of the Goat*. A city that's already pulsating doesn't need any extra noise from a power plant.

Why was the inauguration of the Dominican power plant postponed?

On Febru, the Dominican Corporation of State Electric Companies (CDEEE) reported the inauguration of the plant was postponed due to the Electoral Regime Law, which prohibits the inauguration of government works in the 40 days before municipal elections and the 60 days before congressional and presidential elections.
