36v15 watt solar street light

Overview

What is all in one solar street light?

All in one Solar Street Light also known as Integrated Solar Street Light. Coolex series all in one solar street light is a solar lighting system integrating single crystal silicon solar panel with high photoelectric conversion rate, LED light module with high light efficiency, intelligent battery management system and efficient controller in one.

What are the features of a solar street light?

Self diagnostic feature with LED Indicators. Integrated solar street light with Lithium Ferro Phosphate battery, solar panel and MPPT charge controller built into the luminaire. Pressure die cast aluminium for sturdiness and long life. Specially designed pole mounting bracket allows different tilt angles, lateral and pole top mounting.

What is the battery capacity of a solar street lamp?

The battery capacity for a solar street lamp can be anywhere between 2500 mAh and 15000 mAh. And when choosing a battery, we suggest you go for one with the highest mAh. Why?

Well, there can be days when there's no sunshine at all. And in such situations, a high-capacity battery will ensure your exterior space is well-lit at night time. Tip 4.

How to choose a solar powered street light?

Langy 500W solar powered street lights (DIY-friendly option) Tip 1. Brightness levels and area of coverage should be factored Tip 2. Choose between motion detectors vs. auto on/off based on practical considerations Tip 3. Go for a high-capacity battery Tip 4. Charging and operation time is key Tip 5. The higher the IP rating the better Tip 6.
