# **3W 5W solar water pump**

## Overview

---

What is a 3 hp solar water pump?

On grid 3 HP solar water pump is a grid tied water pumping system. In this system, the solar pump can be powered by direct solar energy as well as the government grid. If the solar panels generate more energy than the 3 HP solar pump's consumption, the excess power is exported to the grid via net metering.

What is a solar-powered water pump?

The solar-powered pump is a wonderful technique for providing water to isolated locations that are both environmentally and socially beneficial. Solar pumps are more popular among farmers and are used to irrigate agricultural land and horticultural fields.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

What is a 5HP solar water pump?

A 5HP solar water pump is a cutting-edge water-lifting system powered by 5kW of solar panels. This solar pump is equipped with advanced safety features such as dry run, reverse polarity, low voltage etc. You no longer require grid electricity because the pump is powered by solar energy. As a result, you will have more money in your saving account.
