48V solar container outdoor power available

Overview

How much power does a 4680w solar panel provide?

[Power generation 21.5KWH + Storage 15.36KWH] The power of 21.5KWh per day under 4 hours full sunshine by the 4680W solar panel system, very suitable for home, shed, cabin, farm or other energy backup, and it will provide enough power for portable ac, air condition, TV, refrigerator, coffee maker, microwave and other AC 110V devices.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is included in a solar power system?

[Package Contents] The complete solar power system includes 24pcs 195W bifacial solar panel, 1pc 5000W 48V hybrid solar charger inverter, 6pcs 48V 50Ah Lithium batteries, Z-bracket as well as accessories needed. You can choose to send multiple packages or choose a pallet truck to ship. Why Choose ECO-WORTHY 48V50Ah LiFePO4 Battery?
