5G base stations will receive electricity price subsidies

Overview

Who do I contact if I need a 5G subsidy?

For enquiries, please contact OFCA at 2961 6333. The Office of the Communications Authority (OFCA) today (July 7) launched the Subsidy Scheme to Extend 5G Coverage in Rural and Remote Areas. Interested licensed mobile network operators.

How many 5G base stations will China build next year?

China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

How much power does a 5G base station use?

Each nation has a different 5G strategy. For 5G, China uses 3.5GHz as the frequency. Then, a 5G base station resembles a 4G system, but it's on a much larger scale. For sub-6GHz in 5G, let's say you have a macro base station. The power levels at the antenna range from 40 watts, 80 watts or 100 watts.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.
