60kWh Foldable Container for Wastewater Treatment Plants

Overview

What is a containerised portable waste water treatment plant?

A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable waste water volumes to achieve any effluent quality.

What is a clearfox® containerized wastewater treatment plant?

ClearFox® containerized wastewater treatment plants offer a highly cost-efficient solution with low capital and operating expenses, as they require no extensive planning, civil works or permanent buildings. The system only needs to be placed on a solid base and connected.

What is a containerized sewage treatment plant?

A containerized Sewage Treatment Plant (STP) is a modular and portable system for treating wastewater, typically housed in standard shipping containers. These units are designed to be easily transported and quickly set up, providing an efficient solution for sewage treatment in various settings. Here's an overview of its applications and benefits:.

How many m³ of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m³ of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.
