

## BLINK SOLAR

# Airport uses Bahrain photovoltaic folding container 40 feet

LIQUID/AIR COOLING

ON GRID/HYBRID

PROTECTION IP54/IP55

BATTERY /6000 CYCLES

## Overview

---

How many solar panels will APM Terminals Bahrain install?

At the end of the solar implementation project, APM Terminals Bahrain will have installed 20,000 solar photovoltaic panels capable of generating 18.5 Gigawatts of electricity per year.

Will Kbsp become Bahrain's first fully energy-sufficient seaport?

APM Terminals Bahrain, operator of Bahrain's main container gateway, Khalifa Bin Salman Port (KBSP), has officially announced the launch of a solar power project worth around \$10m, to make the port energy self-sufficient by the end of 2023, and effectively turning the facility the region's first fully energy-sufficient seaport.

Will Bahrain achieve net zero by 2060?

Bahrain has set goals to reduce the kingdom's emissions by 30% by 2035 and achieve net zero by 2060. "We are very excited to take the first major step in our decarbonisation plans, which will make Khalifa Bin Salman Port the region's first seaport to be fully powered by renewable energy.

What is Bahrain's Sea-to-air hub?

In December 2021, Bahrain launched its global sea-to-air hub, a multimodal logistics hub connecting Bahrain International Airport and KBSP, according to Bahrain's Economic Development Board.
