Apc battery cabinet usage

SOLAR PRO.

Overview

What is a battery cabinet?

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution.

Do I need to enter a battery cabinet for AMP-hrs?

If you are using an APC external battery cabinet you do not need to enter in anything for Amp-Hrs. These battery cabinets have built in communication and will adjust runtime accordingly. If you are using an APC external battery cabinet you do not need to enter in anything for Amp-Hrs.

What is APC trade-ups?

APC Trade-UPS is a 1-phase UPS program that offers new and existing customers the ability to trade in older battery backup units for the most up-to-date 1-phase power protection models at discounted prices. Select UPS (s) for your purchase. Continue to add units until you meet your minimum Trade-UPS requirement of 0 VA.

How do I know if my APC battery pack is bad?

Œ Note the model number of the battery pack, the serial number, and the date purchased. If you call APC Customer Service, a technician will ask you to describe the problem and attempt to solve it over the phone. If this is not possible, the technician will issue a Returned Material Authorization Number (RMA#).
