## Overview

---

Can battery energy storage modernize the grid in Argentina?

The. Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

What's going on with solar in Argentina?

CREDIT: Cauchari Solar BUENOS AIRES, Dec 10 2020 (IPS) - The unprecedented growth of renewable energies in Argentina over the last three years has borne its greatest fruit: the Cauchari solar park, with nearly one million photovoltaic panels and 300 MW of installed power, which was connected to the national power grid on Sept. 26.

Can Argentina decarbonize its power sector?

Argentina's vast solar, wind, and hydroelectric renewable energy potential, give it the possibility to decarbonize its power sector and support its COP26 goal of increasing the share of renewable energy in its national energy matrix to 30 percent by 2030.

How many solar panels will Argentina install in 2024?

Argentina installed 307 MW of solar in 2024, bringing its total PV capacity to 1.67 GW by year-end, according to energy market operator Cammesa. Verano Energy, a renewables developer headquartered in Chile, has started building a 200 MW solar project in western Argentina. The installation is due for completion and connection before the end of 2025.
