Athens Battery Energy Storage Project

Overview

Is Greece ready for a battery energy storage system in 2025?

In 2025, Greece has accelerated its plans for utility-scale Battery Energy Storage Systems (BESS), signalling a shift in policy, financing, and market expectations. However, while the scale of ambition is high, there are several tensions emerging—especially around the move toward unsponsored (merchant) projects.

Does Greece have a battery storage subsidy program?

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in 2023, with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme.

Does Greece have a zero-subsidy battery system?

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone storage projects under three previous auctions.

Is Greece at a turning point with battery energy storage?

Greece in 2025 is at a turning point with Battery Energy Storage. The government's shift toward large unsponsored, merchant BESS with priority grid connection reflects confidence that market conditions — especially curtailment pressures — are making subsidised models less necessary. Yet that confidence comes with risk.

Athens Battery Energy Storage Project

Greece's Big Battery Push: Ambitious BESS Plans Aim High ...

In 2025, Greece has accelerated its plans for utility-scale Battery Energy Storage Systems (BESS), signalling a shift in policy, financing, and market expectations. However, ...

Faria Renewables Secures Funding from Attica Bank for BESS

Faria Renewables and Attica Bank partner to develop one of Greece's largest battery energy storage projects under the "Greece 2.0" plan.

Athens Battery Energy Storage: The Future of Grid-Scale ...

Why Athens Battery Storage Is Redefining Renewable Energy As renewable energy adoption surges globally, the Athens battery energy storage project stands out as a game-changer. ...

Greece plans 4.7 GW of commercial battery storage projects

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone ...

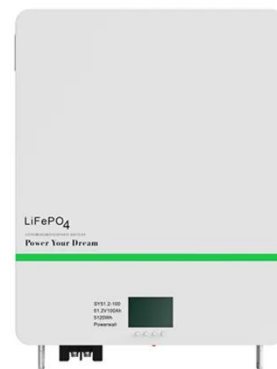

Greece awards 189 MW of battery storage in ...

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The ...

Greece's First Battery Projects Race to Finish Line

Investors rush to complete Greece's first battery storage projects by 2026 amid delays and funding deadlines. HELLENIQ Energy leads the way.

Athens airport project's large-scale batteries to be installed

A total of 36 battery units, each with a capacity of 3.44 MW, will power a

groundbreaking energy-storage project at Athens airport, totaling just over 123 MW. The ...

Greece plans 4.7 GW of commercial battery ...

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, ...

Investors in standalone batteries in Greece request extension ...

September 30 marks a crucial deadline for standalone battery projects selected through Greece's first two auctions. Investors in battery projects of about 700 MW in total are ...

ELSEWEDY ELECTRIC secures Greece's first large-scale ...

This project marks a significant milestone, as the first standalone battery

energy storage system of its scale in Greece. Moreover, it is a key part of ELSEWEDY ELECTRIC's ...

Powering the Future: Inside Athens' Grid Energy Storage ...

Why Athens' Energy Storage System Matters (and Who Cares) Athens, the cradle of Western civilization, now racing to become Europe's energy storage trailblazer. The Athens ...

Greece awards 189 MW of battery storage in third auction

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of ...
