

BLINK SOLAR

Australian solar curtain wall manufacturer

Overview

What types of curtain wall systems do CWS Australia offer?

CWS Australia have access to Curtain Wall systems that suit all situations, whether non-thermally or thermally broken is required, unitised or stick system, single glazed, double glazed and even triple glazed options are available. The team at CWSA have procured, designed and installed several of Perth's award winning Curtain Wall projects.

Who makes Yuanda curtain walls?

The Yuanda Group of companies is one of the largest producers of facades and curtain walls globally. Since 2006, Yuanda's products have been used in 83 locations nationwide, including in some of Australia's most iconic buildings. Seven more locations are currently under construction and another two are in the design stage.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

What is a fully unitised curtain wall system?

The fully unitised curtain wall systems from Envirotech Facade Solutions are revolutionary in their design. They all have the capability to accept almost unlimited IGU thicknesses with their interchangeable bead concept.

Australian solar curtain wall manufacturer
