BESS Myanmar Energy Storage New Energy Company

Overview

Myanmar - [Janu] - Solis, a global leader in renewable energy solutions, has once again set a new benchmark in sustainable energy with the successful deployment of an advanced off-grid Battery Energy Storage System (BESS) in Myanmar. Does Solis have an off-grid battery energy storage system in Myanmar?

Solar tech leader Solis is making waves in Southeast Asia with its new energy solution — an off-grid Battery Energy Storage System (BESS) in Myanmar.

What is a Bess Solar System?

According to Solis, BESS is built to deliver efficient electricity from 8 a.m. to 7:30 p.m., even in less-than-ideal conditions. The system has a 450 kilowatt-peak solar capacity and six hybrid inverters — with a total output of 300 kilowatts — that help convert energy into usable electricity. BESS also boasts 668 kilowatt-hours of battery storage.

What is Bess & how does it work?

BESS is tailored for homes and businesses. It's built to drastically cut pollution by eliminating generator dependence. The system is also designed to reduce grid charging to near zero. Through a Power Purchase Agreement model, BESS supports long-term affordability and sustainability.

What is a Bess solar inverter?

The solar inverter tech company announced the project in collaboration with PowerX, whose technological contributions helped bring the system to life. According to Solis, BESS is built to deliver efficient electricity from 8 a.m. to 7:30 p.m., even in less-than-ideal conditions.

Our member Solis Deploys Off-Grid Energy System in Myanmar Solis has successfully installed an advanced off-grid Battery Energy Storage System (BESS) in ...

TAX FREE 

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
