Battery Energy Storage in France

Overview

What is France's largest battery energy storage system (BESS)?

Leading battery storage developer Harmony Energy is set to deliver France's largest battery energy storage system (BESS)—the Cheviré battery project – using Tesla Megapack technology. The project will mark a significant milestone for the French energy system, being France's first large-scale 2-hour battery.

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: "We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO's first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.
