Battery cabinet 81 batteries 3 groups

Overview

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

What is a Legrand Battery Cabinet?

Universal battery cabinets for all three-phase Legrand UPS from 10kVA up to 800kVA power range. The Battery cabinet is designed to house standard VRLA Batteries of capacity range from 24Ah to 105Ah (C10).
