.

Do you need an uninterruptible power supply (UPS)?

A power failure is more than an inconvenience—it can knock out essential equipment for hours on end. If you have important electronics that have to keep running when the power's out, you'll need an uninterruptible power supply (UPS). Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day.

Why should you choose a reliable UPS system?
