Belgian investment in energy storage power station projects

Overview

Is Belgium a big market for energy storage?

Belgium is one of Europe's most developed markets for large-scale energy storage, with grid-scale lithium-ion BESS projects being deployed starting in 2020/21. 2025 has seen the start of construction on a 440MWh project from owners BStor and Energy Solutions Group and a 400MWh from utility and power generation firm Engie.

Where is the battery energy storage project located in Belgium?

Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid operator, and be located next to Engie's gas power plant in Vilvoorde. From pv magazine ESS News site.

What is a 600 MWh power plant in Belgium?

The 600MWh facility, developed in partnership with Belgian energy company Luminus, is among the country's largest and aims to strengthen grid stability while facilitating the integration of renewable energy sources. The project supports Belgium's broader energy transition and is aligned with both national and European Union decarbonisation goals.

Will Engie be able to build a new battery plant in Belgium?

Engie described this as "a double success within the CRM framework," which ensures a future for its site in Belgium. The Vilvoorde BESS project will be launched in two phases, with the commissioning of 100 MW of batteries in September 2025, and a further 100 MW in January 2026.

Engie breaks ground on 800 MWh battery in Belgium

Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid operator, and be located next to Engie's ...

I4B Backs 600MWh Battery Project in Belgium

I4B - The Belgian Infrastructure Fund - has announced a EUR30 million investment in a major battery energy storage system (BESS) project in Visé, Belgium. The 600MWh facility, ...

ENGIE, NHOA Greenlight 320 MWh Battery Storage (BESS) ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

I4B - The Belgian Infrastructure Fund invests in one of Belgium...

The Belgian Infrastructure Fund is proud to announce the closing of the financing of a cutting-edge 600 MWh Battery Energy Storage System (BESS) in Visé together with ...

Belgian fund invests in 600-MWh battery ...

I4B - The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system ...

Energy Solutions Group finances 300 MWh Belgian battery

Belgian clean power developer Energy Solutions Group (ESG) has announced it has completed the project finance for the 75 MW/300 MWh battery energy storage system ...

ENGIE and NHOA Energy Collaborate for 320 MWh BESS

ENGIE has awarded NHOA Energy the contract to supply, commission, and

provide long-term services for a new 80 MW / 320 MWh Battery Energy Storage System (BESS) at ...

Investor I4B, utility Luminus start building 600MWh Belgium ...

Belgium is one of Europe's most developed markets for large-scale energy storage, with grid-scale lithium-ion BESS projects being deployed starting in 2020/21. 2025 ...

I4B - The Belgian Infrastructure Fund invests ...

The Belgian Infrastructure Fund is proud to announce the closing of the financing of a cutting-edge 600 MWh Battery Energy ...

Investor I4B, utility Luminus start building ...

Belgium is one of Europe's most developed markets for large-scale

energy storage, with grid-scale lithium-ion BESS projects being ...

Engie breaks ground on 800 MWh battery in ...

Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid ...

Alfen NV Wins Contract for Two 35MW Battery Storage Projects in Belgium

Alfen NV has signed an agreement with HybriX Energy for the delivery and long-term maintenance of two large-scale Battery Energy Storage System (BESS) projects in Belgium. ...

Energy Solutions Group finances 300 MWh ...

Belgian clean power developer Energy Solutions Group (ESG) has announced it

has completed the project finance for the 75 MW/300 ...

Belgian fund invests in 600-MWh battery storage project , Energy

I4B - The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system (BESS) project in Belgium, one of the country's ...

Impressive Belgian battery storage: 800 MWh is essential

This includes other significant projects like the 100 MW / 400 MWh Kallo project, which is currently under construction, and the 80 MW / 320 MWh Drogenbos project, set to ...
