Best on grid hybrid solar inverter for sale

Overview

What is a hybrid inverter?

A hybrid inverter is essentially two inverters in one. It combines a solar inverter and a battery inverter into one simple unit. These advanced inverters use solar energy to power your home, charge a battery, or send excess energy into the electricity grid. Most hybrid inverters can also provide emergency backup power during a blackout.

How do I select a hybrid inverter?

When choosing a hybrid inverter, it's important to consider its capabilities and how they can be customized to suit your needs and preferences. To help you make an informed decision, consider consulting with an accredited solar and battery specialist like Jason Svarc, who has over a decade of experience in designing and installing solar and battery systems.

Which hybrid solar inverter is best?

Thanks to 10-year standard warranties and global service centers, Huawei comfortably sits in the top 10 hybrid solar inverter companies roster. Solis knows how to stretch a dollar. Their RHI-3P (5-10)K-HS hybrid solar inverter range chugs happily at 97.5 % efficiency and tolerates scorching rooftops up to 60 °C.

Are Growatt solar inverters a good choice?

Growatt is the kid on the block who studies hard and wins the race. Their SPH and MOD series hybrid solar inverters hit 98 % efficiency and tuck neatly inside small homes. You get Wi-Fi built in, a five-year warranty extendable to ten, and a snappy ShineLink app. Installers praise the light chassis (under 20 kg), meaning lower labor costs.
