Boston solar Energy Storage Power Generation Project

Overview

How many energy storage facilities are there in Massachusetts?

The Massachusetts Energy Siting Facilities Board has approved two energy storage facilities with a combined capacity of 400 MW/800 MWh. This decision overturns previous rulings that hindered the development of these facilities. Once operational, they will fulfill 80% of the state's 1 GWh energy storage deployment target for 2025.

Why did the Commonwealth overrule solar and storage projects?

The Commonwealth overruled the decisions of its own siting boards and one town's moratoria on all solar and storage projects, paving the way for the imminent construction of two significant energy storage facilities.

How much storage capacity does Massachusetts have?

It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline. Plus Power's 150MW/300MWh Cranberry Point BESS located in the Town of Carver is expected to make up a large proportion of the 1GWh total, with commercial operations scheduled for summer this year.

Why should we invest in energy storage technology?

Advancements in Energy Technology: This project represents a significant investment in cutting-edge energy storage technology. It could lead to advancements and cost reductions in battery technology, making energy storage more accessible and efficient for other regions and projects.

Boston solar Energy Storage Power Generation Project

Massachusetts greenlights 800 MWh battery energy storage ...

The Commonwealth overruled the decisions of its own siting boards and one town's moratoria on all solar and storage projects, paving the way for the imminent construction of ...

Flatiron Energy Secures Approval for 300-MW ...

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental ...

ESA unveils 300 MW of battery storage ...

The Sturbridge Power and Carpenter Hill Power facilities will be built at sites between Springfield and Boston. The projects are in the ...

Streamfield Energy Storage

Jupiter Power is proposing to build and operate the Streamfield Energy Storage Facility (Streamfield) in Westfield, Massachusetts. Streamfield is a 200-megawatt utility-scale ...

Massachusetts greenlights 800 MWh battery ...

The Commonwealth overruled the decisions of its own siting boards and one town's moratoria on all solar and storage projects, paving ...

Flatiron Energy Secures Approval for 300-MW Battery Project

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future ...

ESA unveils 300 MW of battery storage projects in ...

The Sturbridge Power and Carpenter Hill Power facilities will be built at sites

between Springfield and Boston. The projects are in the advanced stages of development. ...

Massachusetts Bets Big on 5,000 MW of ...

Massachusetts' energy storage mandate requires investor-owned utilities to secure 5,000 megawatts (MW) of storage by 2030.

Flatiron Energy gets green light for 1.2GWh indoor BESS in Boston

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor ...

Streamfield Energy Storage

Jupiter Power is proposing to build and operate the Streamfield Energy Storage Facility (Streamfield) in Westfield, ...

Accelerating Climate Action, 11 Boston and ...

Apex Clean Energy was founded with a singular focus: to accelerate the shift to clean energy. Through origination, development, ...

Massachusetts Bets Big on 5,000 MW of Energy Storage by ...

Massachusetts' energy storage mandate requires investor-owned utilities to secure 5,000 megawatts (MW) of storage by 2030.

Solar+Storage+Electrification: A Clean Energy ...

A Massachusetts pilot program provides a replicable and scalable model for

bringing renewable energy, battery storage, and ...

SinglePoint Subsidiary Boston Solar Jumpstarts 2025 with ...

With the cost of solar panels continuing to fall, coupled with efficiency improvements and energy storage innovations, solar power is becoming more accessible and cost-effective ...

Solar+Storage+Electrification: A Clean Energy Equity Model ...

A Massachusetts pilot program provides a replicable and scalable model for bringing renewable energy, battery storage, and electrification to low-income households. The ...

THE STATE OF GRID ENERGY STORAGE IN ...

The State of Grid Energy Storage in Massachusetts Grid-scale energy storage

is often described as a game changer because of its potential to revolutionize the design and ...

Accelerating Climate Action, 11 Boston and Cambridge ...

Apex Clean Energy was founded with a singular focus: to accelerate the shift to clean energy. Through origination, development, construction, and operation of utility-scale ...

Flatiron Energy gets green light for 1.2GWh ...

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given ...
