

Overview

Does Scatec own a power plant in Botswana?

The power plant will generate predictable revenues from a 25-year power purchase agreement (PPA) with Botswana Power Corporation, the national utility. Scatec owns 100% of the project portfolio, but expects to reduce its long-term economic interest by inviting additional equity partners.

What is the power sector in Botswana?

Revised in April 2025, this map provides a detailed view of the power sector in Botswana. The locations of power generation facilities that are operating, under construction or planned are shown by type - including liquid fuels, gas and liquid fuels, coal, hybrid, hydroelectricity and solar.

What are the different types of power generation sites?

The locations of power generation facilities that are operating, under construction or planned are shown by type - including liquid fuels, gas and liquid fuels, coal, hybrid, hydroelectricity and solar. Generation sites are marked with different sized circles to show sites of 1-9MW, 10-99MW, 100-499MW and 500MW and above.
