# **Brazilian energy storage container production plant**

## Overview

---

What is the market potential for energy storage in Brazil?

Daniel Lyrio: TBEA considers that Brazil's market potential is estimated at 5 GWh for the next three years, considering that we have the auction in 2025, with an average market [battery project] value of BRL 1.5 million/kWh, the number to be invested is around BRL 7.5 billion. Which applications should lead the adoption of energy storage in Brazil?

.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Can TBEA replicate the energy storage model in Brazil?

TBEA will bring case studies from large energy storage projects installed by the company around the world, showing the potential to replicate the model in Brazil. pv magazine will also look at the variables that can make these projects more, or less competitive. Register now! From pv magazine Brasil.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.
