

## BLINK SOLAR

# Bulgaria Solar Container Fast Charging

### Utility-Scale ESS solutions

## Overview

---

Which country has the strongest battery energy storage system in the Balkans?

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new facility, with a capability of 124.1 MW and 496.4 MWh in capacity, is the biggest in the European Union.

What is the biggest solar park in Bulgaria?

The solar park of two units, operating since May 2023, is one of the biggest in Bulgaria. The investment was worth EUR 51.2 million. The PV system spans almost 72 hectares, while the industrial park has 131.5 hectares.

How much energy can a Bess storage container hold?

A large container can store up to 5 MWh of energy. Cabinets typically hold several hundred kilowatt-hours, while stacks are mainly used by homes and small businesses. Although smaller BESS types can be combined, they have rarely been used to match the capacity of larger systems - until now. To continue reading, please visit our ESS News website.

Where is a Bess power plant located in Bulgaria?

A BESS facility of 124.1 MW in operating power was inaugurated in Lovech in Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system.
