# **Cambodia Solar Power Generation and Energy Storage Head Manufacturer**

## Overview

---

Who is new East solar energy (Cambodia)?

New East Solar Energy (Cambodia) CO., LTD. NE Solar, a global leader in solar cell and panel manufacturing with a total production capacity of 9GW. The factory is strategically located in Phnom Penh, Cambodia, where they boast respective cell production capabilities.

How many energy projects are coming to Cambodia?

The Cambodian Cabinet approved four energy projects this past April, a US\$231 million hydroelectric power and three solar power projects with a combined, rated, maximum power capacity of 140 MW. The latter are expected to come online and dispatch power to the national grid by 2020 and 2021 in four different provinces.

Can solar power help Cambodia achieve national electrification goals?

Searching for alternative options, Cambodia joins a growing list of national governments who have come around to seeing solar and other distributed, emissions-free renewable energy resources as a cost-effective means of achieving national electrification, as well as national and international climate change and renewable energy, goals.

Why are Cambodians investing in solar energy?

Cambodian households and businesses are also increasingly investing in behind-the-meter (BTM) solar energy systems as they're much easier and faster to deploy and costs are lower than utility grid rates, market analysts highlight.
