Can Paris make energy storage batteries

Overview

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: “We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO’s first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.

How much electricity can a Marne battery store?

The battery will have the capacity to store approximately 20% of the residential electricity needs of the Marne department, which is home to over half a million residents.

What is the Cernay-lès-Reims battery project?

Fully developed and managed by TagEnergy, the Cernay-lès-Reims battery project benefits from significant economies of scale, with a storage capacity nearly five times larger than the country’s current largest operational battery.

Can Paris make energy storage batteries

CATL's Blueprint for the Battery-Powered Future
