Canberra energy storage key projects

Overview

Will a big battery power Canberra?

The government said the big battery project will be capable of responding rapidly to network constraints and will be able to store enough renewable energy to power one-third of Canberra for two hours during peak demand periods. The Williamsdale battery will be developed, built and operated by Macquarie Group offshoot Eku Energy.

What is the Big Canberra battery project?

Installation is underway on behind-the-meter batteries at nine sites. The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes the installation of: installation of behind-the-meter batteries at nine government sites.

Why should we invest in the Big Canberra battery?

By investing in projects like the Big Canberra Battery, we're supporting economic growth, generating an ongoing supply of reliable revenue, creating local jobs, and attracting new investment in clean technology. "Our partnership with Eku Energy is a crucial step in the fight against climate change.

Will a 250 MW / 500 MWh battery energy storage system 'future proof' Canberra?

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's energy supply by reducing the load on Canberra's electricity network and increasing network reliability.

Canberra energy storage key projects

1mwh (500kw/1mw)

AIR COOLING
ENERGY STORAGE CONTAINER

Advancing Canberra's Energy Landscape with Community Battery Energy

With a \$1.5 million investment and support from Evoenergy, Canberra's electricity distribution network service provider, the new project aims to bring energy storage closer to ...

Construction begins on ACT's Big Battery

By investing in projects like the Big Canberra Battery, we're supporting economic growth, generating an ongoing supply of reliable ...

The Big Canberra Battery , Williamsdale Energy Storage ...

Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical specifications of our work on the Big Canberra ...

Construction begins on Williamsdale Battery ...

The ACT Government and Eku Energy have begun construction on the 250MW/500MWh Williamsdale Battery Energy ...

Macquarie's Eku gets green light for 500 MWh Canberra big ...

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's ...

Williamsdale Battery Energy Storage System

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project ...

Big Canberra Battery - Williamsdale BESS

The large-scale battery energy storage system (BESS) will provide at least 250

megawatts (MW) of power. This is enough energy to power one-third of Canberra for two ...

Macquarie's Eku gets green light for 500 ...

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" ...

Canberra begins construction of battery ...

The Australian Capital Territory (Act) Government and global energy storage firm Eku Energy have begun construction on the ...

Construction begins on ACT's Big Battery

By investing in projects like the Big Canberra Battery, we're supporting

economic growth, generating an ongoing supply of reliable revenue, creating local jobs, and attracting ...

Advancing Canberra's Energy Landscape with ...

With a \$1.5 million investment and support from Evoenergy, Canberra's electricity distribution network service provider, the new ...

Williamsdale Battery Energy Storage System

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, ...

Canberra begins construction of battery energy storage system

The Australian Capital Territory (Act) Government and global energy storage

firm Eku Energy have begun construction on the Williamsdale Battery Energy Storage System ...

Construction begins on Williamsdale Battery in Canberra

The ACT Government and Eku Energy have begun construction on the 250MW/500MWh Williamsdale Battery Energy Storage System.

The Big Canberra Battery , Williamsdale ...

Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical ...

Big Canberra Battery

As part of the Big Canberra Battery project, the ACT Government is delivering a 250-megawatt / 500

megawatt-hour battery energy storage system (BESS) facility in Williamsdale, ACT. ...

Canberra Energy Storage Reservoir Progress: Powering ...

Why the Canberra Energy Storage Project Is Making Headlines Australia's capital is stepping into the renewable energy spotlight with its ambitious Canberra energy storage reservoir project. ...
