Why should you choose sigenergy battery storage in Canberra?

Sigenergy battery storage in Canberra provides reliable whole-home backup and smart energy management, helping you use more of your solar.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

What is Williamsdale battery energy storage system?

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, storing renewable energy to power one-third of Canberra during peak demand. Learn about its impact, development, and community benefits.

What is a large-scale battery storage system?

The large-scale battery storage system will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. Enough energy to power one-third of Canberra for two hours during peak demand periods. Improves energy security for Canberrans. Provides a cost effective and sustainable solution to manage population growth.
