# Canberra solar container energy storage system Maintenance

## Overview

---

Does Canberra have battery storage?

Battery storage for residential solar energy is becoming increasingly popular in Australia – including in Canberra, ACT. If you're a Canberra resident looking to install a battery storage system for your home, what are the main things that you need to consider?

.

Does Canberra have solar?

Canberra is home to an increasing number of solar systems, with thousands of households utilising the sun to power their homes and reduce their energy bills. But when it comes to installing solar in Canberra, what should you be aware of, and what's available to you?

Find out more about solar power in Canberra with this Canstar Blue guide.

How much does solar cost in Canberra?

4kW systems or larger will generally cost over \$4,200. Canberra is home to an increasing number of solar systems, with thousands of households utilising the sun to power their homes and reduce their energy bills. But when it comes to installing solar in Canberra, what should you be aware of, and what's available to you?

.

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.
