Cheap solar power station for home Buyer

Overview

This post goes over three of the cheapest solar generators (aka portable power stations) that range from 150-200Wh of battery capacity and cost between \$100 and \$140. How much does a solar generator cost?

Since solar-powered generators are generally expensive, I've gathered some inexpensive options with a good online reputation. This post goes over three of the cheapest solar generators (aka portable power stations) that range from 150-200Wh of battery capacity and cost between \$100 and \$140.

How much do solar panels cost?

Global solar panel pricing varies wildly. Manufacturing locations dramatically affect final costs. China produces the world's cheapest solar panels at \$0.13-\$0.18/watt. Vietnam and Malaysia follow at \$0.18-\$0.22/watt. US/EU panels cost \$0.30-\$0.50/watt. Key Insight: Cheapest doesn't mean lowest quality.

Which solar panel should I buy?

Eagle Continental: This panel is my recommendation for the most affordable solar panel for homeowners on a budget. Its 19.8% efficiency rating is good, but not great, but its cost per watt, coming in at \$2.25, is hard to beat. Eagle G4: The Eagle G4 is a big step up from the Continental.

What should you look for when buying cheap solar panels?

Here are the four main things to look for when shopping for cheap solar panels: Cost per watt: It's easy to get distracted by the total price of a solar system, but the number you should focus on is the cost per watt.
