China Mobile base station communication equipment

Overview

What is China's first military-grade mobile 5G base station?

Please contact us for more information. China unveils the world's first military-grade mobile 5G base station, developed by China Mobile Communications Group and the PLA, designed for battlefield use to enable seamless communication for up to 10,000 military robots and drones within a 3-kilometer radius.

What is China Mobile Communications (PLA)?

Developed jointly by China Mobile Communications Group and the People's Liberation Army (PLA), this cutting-edge system promises to revolutionize modern warfare by enabling seamless communication for up to 10,000 military robots and drones within a 3-kilometer (1.8-mile) radius.

What is China's Military 5G system?

China's military 5G system leverages civilian 5G infrastructure, enabling rapid switching between drones and ground base stations, positioning the PLA as a leader in unmanned combat capabilities and outpacing U.S. efforts in military 5G development.
