China high voltage switchgear in Estonia

Overview

What is a Doho HV switchgear?

DOHO HV switchgear products are designed for installation in locations with high voltage systems such power transmission and distribution. We are among the preferred high and low voltage switchgear companies by electrical businesses around the world, with clients from more than 60 countries and growing.

Who is Doho electrical equipment & switchgear?

DOHO is one of the top electrical equipment and switchgear companies in the world, specializing in the production of low-voltage and medium-voltage switchgear as well as key components such as circuit breakers, relays, contactors, and protectors.

What is a low voltage switchgear?

DOHO low voltage switchgear is designed for safe and reliable distribution of electrical power in residential, commercial, and industrial applications. This type of switchgear is available in a variety of configurations, including circuit breakers, contactors, fuses and other components.

What are the advantages of a switchgear?

The design of the switchgear has been developed by Eltech Solutions OÜ to fulfill various technical solutions, which many standard solutions do not allow. The main advantages of the construction are the rigidity of the main structure of the frame and the flexibility based on modularity (perforation in 25 mm increments).
