Colombia Mobile Power Station Generator Set

Overview

What is the Columbia Generating Station?

The Columbia Generating Station is a boiling-water nuclear reactor - Source: NRC. The Nuclear Regulatory Commission has announced an opportunity to request a hearing on an application to renew the operating license for this nuclear power plant.

What is a prime power mobile power station?

" PRIME POWER" mobile power station contains vehicle-type and trailer-type. It can be used in outdoor operation, project repairing work, and emergency rescuing. As high-mobility power, it can response to the emergency quickly and reach the work site the first time needed, providing continuous stable power.

Why are mobile power stations so popular?

The unique and special design of vehicle-type and trailer-type gensets make the operation user-friendly. The production of large quantity of mobile power stations which have received the customers' recognition make its technology more mature.
