# Colombia wind and solar energy storage project approved

## Overview

---

How many wind and solar projects are in Colombia?

Colombia's 2019 renewable energy auction awarded contracts for nine wind and five solar projects. These projects are worth approximately \$8 billion and will add 1,365 MW of wind and solar capacity, due to be commissioned by 2022.

Are Colombia's wind energy plans stalling?

(AP Photo/Ivan Valencia, File) BOGOTA, Colombia (AP) — Colombia's ambitious plans for wind energy development, especially in the resource-rich La Guajira region, are facing serious setbacks as major companies pull out and projects stall, industry experts say.

Did Colombia start a wind farm without a regulatory framework?

Diego Patron, manager of the Jemeiwaa Ka'I wind project, a large-scale wind farm cluster in La Guajira, acknowledged the pioneering nature of Colombia's early wind efforts, which began in a regulatory vacuum without clear institutional frameworks.

Is Colombia a leader in sustainable mobility?

Colombia is positioning itself to be a leader in sustainable mobility for the next decade. The country approved the first program for 20 percent biodiesel blends, and Law 1715 in 2014 further promoted private ventures in large-scale, renewable energy projects.
