# Community uses Tehran folding containers with extra-large capacity

## Overview

---

What is a folding container?

Folding container varieties that can be manually installed are designed in detail as a system of interlocking components. The models which have folded size of 3.00 x 7.00 m length and 40 cm height or 2.40 x 6.00 m length and 40 cm height reach to 3.00 x 7.00 m length and 2.40 m height after installation.

Do uamfuri bins have a dual-access design?

Yes, the bins feature a dual-access design. You can access your items through the open front for quick grabs or use the top lid for secure storage, making them versatile for various storage needs. Our Vision UAMFURI strives to be more than just a storage brand.

Why should you choose a folding container?

Folding containers stand out as a practical accommodation option that can be quickly installed and lifted in earthquake zones, high refugee population, construction sites and many other areas. They easily provide shelter, healthcare and educational functions particularly during natural disasters, humane crisis periods.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.
