Compact power station factory in Namibia

Overview

Who owns the power station in Namibia?

The power station will be operated by state-owned utility, Namibia Power Corporation (NamPower). The project is a joint venture between FK Namibia - represented by FK Generators and Equipment (International) - and the two Namibian firms, PHIM and August Twenty Six Construction.

How is Namibia's New Power Plant commissioned?

It was commissioned via an open, international bidding process for constructing the power station under an EPC turnkey contract. Ghassan Saab, Head of Power, MEA Region at MAN Energy Solutions, said: "This new power plant will enhance the Namibian power grid's security of supply by introducing 50 MW of dispatchable generation capacity.

Will NamPower build anixas II power station?

NamPower has completed the construction of the N\$1.28 billion Anixas II Power Station, a 54 megawatts (MW) facility aimed at strengthening Namibia's electricity supply. The inauguration of the Anixas II Power Station is scheduled for 21 February in Walvis Bay.

Does NamPower own anixas?

NamPower currently owns and operates Anixas I along with two other power stations, contributing to a combined installed capacity of 459.5MW. Namibia's national power utility, NamPower, has completed the construction of the 54-megawatt (MW) Anixas II Power Station, a project valued at N\$1.28 billion.
