Comparison of Two-Way Charging Products for Campsite Solar Folding Containers

Overview

Do you need a camping solar charger?

Whether you want to keep your phone powered in case of emergencies or just charge your GPS for navigation, having a camping solar charger is one way to make your camping experience more enjoyable. Thanks to solar energy, you can power basic electronic devices without needing to connect to an outlet.

What is the best camping solar charger for backpackers?

Our close-second choice for the best camping solar charger for backpackers goes to the Powertraveller Extreme Solar charger. It's fairly compact and has a convenient clamshell design so it's easy to keep safe while on the trail.

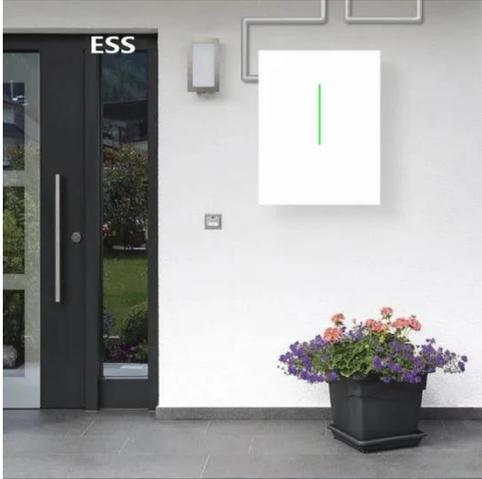

How much does a camping solar charger weigh?

This relatively lightweight camping solar charger weighs 13.76 ounces, and comes with an integrated 2,200 mAh battery so you can continue to charge your devices even when the sun is no longer shining.

How portable are solar panels for camping?

Solar panel kits for camping are designed for taking away with you wherever you go. That is why many models are foldable, lightweight and thus highly portable. How portable you need it to be does of course depend on your mode of transport - an RV driver can easily carry far more than a hiker or backpacker traveling on foot.
