Cordoba Lithium Energy Storage Power Production Company Argentina

Overview

Will Argentina start a lithium battery factory in Latin America?

(Image: Mariano Garcia / Alamy) Argentina will start operations at the first lithium battery cell factory in Latin America before the end of the year. The country aims to boost its position in the region's electric transport and energy storage markets, and go beyond simply producing the lithium that is critical to their growth.

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

Why should you buy lithium in Argentina?

Argentina's vast lithium resources are critical to meeting surging global demand primarily for electric vehicles and large-scale energy storage systems. With this, Argentina is positioned to be a key supplier of high-quality, cost-effective lithium. * Lithium Argentina's lithium carbonate production expectations on a 100% basis.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?
