Overview

Short version: From 2024, it costs between \$2,800 and \$5,500 to ship a 20-foot container of solar panels around the world, depending on origin, destination, fuel prices, and demand. How much does container shipping cost?

Beyond basic size differences, specialized equipment costs more. Container shipping costs vary by size. A 20-foot container (20ft or 1 TEU) costs between \$1,500 and \$5,000, while a 40-foot container (40ft or 2 TEU) costs between \$2,500 and \$10,000 for most major routes. These are base rates before additional fees.

How much does a 40ft container cost?

A 40ft standard container from China to the US West Coast costs \$3,500–\$6,000. Shipping to the East Coast ranges from \$4,500–\$7,500. These rates include base ocean freight and surcharges but not destination charges, customs clearance, or inland transportation. High-demand periods can push rates 30%–50% higher.

How much does a full container load cost?

FCL: For international moves, a full container load charges about \$4000 which is approximately 27-30% more than LCL. LCL: Likewise, less than a container load costs about \$1600 for an overseas move which is less expensive than FCL. Do you plan any shipments?

.

How do shipping container cost calculators work?

Online shipping container cost calculators like FreightWise help take the guesswork out of your logistics budget. Enter your origin and destination ports, container size, cargo type, and shipping date to get an accurate quote based on current market rates. These calculators also consider seasonal changes and apply appropriate surcharges.
