# Croatia outdoor power charging pump

## Overview

---

How many high-power charging stations will be installed in Croatia?

GreenWay, a CPO headquartered in Poland, plans to install 300 high-power charging stations in Croatia over the next three to five years. As GreenWay CEO Dino Novosel told local media, the stations will have a capacity of 100 to 400 kW. They will be installed along strategic corridors, urban areas, and commercial facilities.

What type of power plug is used in Croatia?

This page is for travelers living in the United Kingdom. I live in another country. In Croatia, power plugs and sockets (outlets) of type C and type F are used. The standard voltage is 230 V at a frequency of 50 Hz.

When will a new Charger be built in Croatia?

Construction in Croatia will begin in January 2024, with the first site in the city of Slunj. Croatia currently has at most 34 chargers per 100,000 inhabitants, according to the media report, 20 times weaker than the most developed market in the European Union, the Netherlands, and three times under the EU average.

How many electric cars are sold in Croatia in 2023?

At the same time, advocates behold that the number of chargers was in line with the (underdeveloped) yet growing market for electric cars. Statista said around 3,000 electric vehicles were sold in Croatia in 2023. GreenWay operates over 1,000 charging stations, mainly fast and high-power chargers, as e-mobility provider (EMP).
