Delivery Time of Foldable Container Mobile Vehicles

Overview

What is cars in containers?

Cars in Containers involves loading finished vehicles into standard dry containers. Each vehicle is positioned and immobilised (secured/lashed) within the container floor or racks. Since the cars are containerised, they can be moved using multiple modes of transport, which comes in handy especially before and after the ocean journey.

How are cars transported?

Each vehicle is positioned and immobilised (secured/lashed) within the container floor or racks. Since the cars are containerised, they can be moved using multiple modes of transport, which comes in handy especially before and after the ocean journey. Upon arrival at the depot, cars are carefully unloaded and shipped to their destinations.
