Dublin Energy Storage Vehicles are Affordable

Overview

What's going on with energy storage in Ireland?

An artist's impression of the planned Ballynahone Energy Storage plant in Donegal. The proposed concept will be the first battery storage project of its kind in Europe. Bobby Smith, head of Energy Storage Ireland, highlights a critical need for clear policy and infrastructure development to ensure Ireland meets its renewable energy goals.

What is Ireland doing about battery & storage?

With a recent policy statement, Ireland is seeking to accelerate the growth and integration of battery and other storage systems into Ireland's electricity grid.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Is energy storage a game changer for Ireland & Northern Ireland?

May 2022 Baringa Partners show that energy storage is a game changer for Ireland and Northern Ireland's renewable energy ambitions in terms of its ability to manage renewable oversupply, reduce CO2 emissions, provide low carbon capacity and reduce costs to consumers.

Dublin Energy Storage Vehicles are Affordable
