---

Who is home energy retrofit Ireland?

We're Ireland's award-winning specialists in home energy retrofit Ireland, helping homeowners lower bills and future-proof their homes with SEAI grants and low-cost finance. Deep Retrofit - Full Home Energy Retrofit in Ireland A deep retrofit is a full upgrade of your home's energy performance.

What is a deep retrofit - full home energy retrofit in Ireland?

Deep Retrofit - Full Home Energy Retrofit in Ireland A deep retrofit is a full upgrade of your home's energy performance. Our home energy retrofit Ireland services often bring homes to BER A-rating. This includes improvements to insulation, windows, heating systems, ventilation and more, all carried out in one coordinated project.

Should you retrofit your home in Ireland?

Retrofitting your home in Ireland is a great way to improve your energy efficiency, lower your bills, and reduce your carbon footprint. However, understanding the costs, available grants, and choosing the right installers is crucial before you commit. What is a home retrofit?

How do I choose a home retrofit contractor in Ireland?

The National Home Retrofit Scheme in Ireland also aims to improve homes' Building Energy Rating (BER) to at least a B2 level 17. When picking a contractor, consider these factors: Choosing a qualified contractor means your retrofitting project will be done well.
