Energy company uses Albanian solar container 120 feet

Overview

Founded in 2008 by President and CEO Alfons Uka, the company “EU Green Energy”, formerly known as “MAK Albania” sh.p.k, a future-focused green energy, has emerged as one of the key players in Albania renewable energy sector, along with its partners “ELB Ndertuesi” sh.p.k, “Intesig” sh.p.k, “Solares – Solar Energy Solutions” sh.p.k, “Elbabeton” sh.p.k, “Standard Alb” sh.p.k, and “Balkan Utilities Company” sh.p.k. How many solar projects are in Albania?

The Albanian government has received requests from four companies looking to develop four separate solar projects located across the country. Albania’s Ministry of Infrastructure and Energy has received expressions of interest from four companies looking to construct four solar projects with a cumulative capacity totaling 235 MW.

Will a 100 MW solar power plant be built in Albania?

A company called Euron Solar-PV has submitted an application to the Albanian Ministry of Infrastructure and Energy for the construction of a 100 MW Solar power plant in the villages of Fushe and Povelce, near Fier City. The project is currently in its initial stages and the public has two weeks to submit comments and objections.

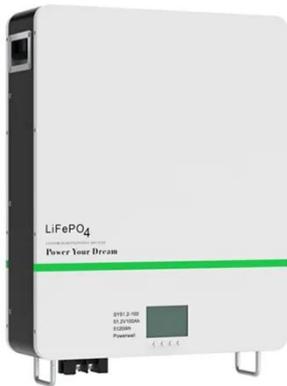

How much does solar cost in Albania?

Albania ran a 300 MW solar tender last year. The Ministry of Infrastructure and Energy shortlisted nine bidders with an average price of €0.0513 (\$0.054)/kWh offered across 283.9 MW of capacity allocated in July. The country had deployed 163 MW of solar by the end of 2023, according to figures from the International Renewable Energy Agency (IRENA).

Will Albania expand its solar sector?

Albania, meanwhile, has sought to expand its solar sector in recent years, launching its fifth round of auctions for new PV capacity in January of this year. Bids were placed for 355.9MW of capacity, and the ministry of infrastructure and energy awarded contracts to eight consortia for 300MW of capacity.
