# Energy storage cabinet in Türkiye s large industrial park

## Overview

---

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

Where is Turkey's first solar power plant located?

In 2018, Turkey's first large-scale battery plant was established in Manisa, integrated with a wind power station. During the following year, Turkey's first grid-connected solar energy and storage facility came into operation in Konya, showcasing simultaneous solar energy generation and battery storage.

Can Türkiye become a regional hub for battery technology?

"We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality," Tokcan said. These efforts will position Türkiye as a leader in energy storage innovation, fostering collaboration and supporting renewable energy goals.

## Energy storage cabinet in Türkiye s large industrial park

---

### Discussion on the prospect of Turkey's energy ...
