Energy storage equipment company sets up branch factory

Overview

What is Tesla's new energy storage megafactory?

The energy storage Megafactory is the first of its kind built by Tesla outside the US and the company's second plant in Shanghai. Mass production at the factory commenced just eight months after construction began, serving as a new example of "Tesla speed" in China, Tesla said in a press release sent to the Global Times on Tuesday.

Will Tesla's Shanghai energy storage megafactory expand?

At the launching ceremony, Mike Snyder, Tesla's vice president of energy and charging, noted that Tesla's Shanghai energy storage Megafactory is scheduled to ramp up production this quarter, which will assist Tesla to expand into more markets. "We've witnessed the incredible speed of Shanghai and Tesla once again.

Is China a major market for energy storage?

* As the global renewables powerhouse, China is a major market for energy storage. SHANGHAI, Feb. 11 (Xinhua) -- U.S. carmaker Tesla's new Megafactory in Shanghai, dedicated to manufacturing energy-storage batteries known as Megapacks, launched production on Tuesday, marking a significant expansion of the company's presence in China.
