Energy storage grid cabinet 400kw

Overview

What is ESS cabinet?

SHANGHAI ELECNOVA ENERGY STORAGE CO., LTD. The all-in-one air-cooled ESS cabinet integrates long-life battery, efficient bidirectional-balancing BMS, high-performance PCS, active safety system. This series of products adopts an advanced single-cabinet independent liquid cooling control scheme and uniform temperature control strategy.

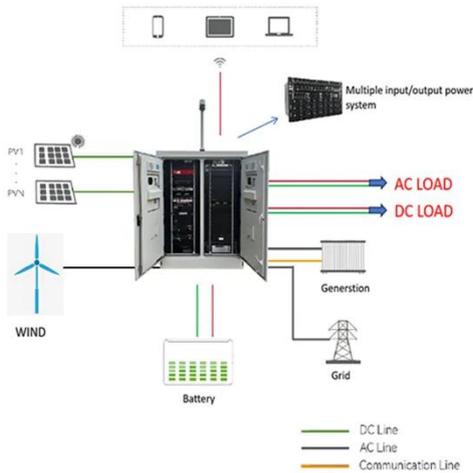

What is a 20 ft air cooled ESS container?

The 20-ft air-cooled ESS container product integrates PACK, BMS, PCS, EMS, HVAC and fire safety system in one container which has advantages. In order to meet the design requirements of modularity, integration, and convenience in large-scale energy storage power station.

What are the modes of energy storage BMS?

The energy storage BMS solution supports two modes: a three-level architecture (BMU sub-control module + BCU main control module + BSU master control module). The ECO-EMS series of products is an integrated energy management system designed for energy storage application scenarios.
