Energy storage projects under construction in the UK

Overview

What are the UK's largest energy storage projects?

Bramley BESS (Hampshire): 100 MW / 331 MWh, currently the UK's largest energy storage project. Fidra Energy (Thorpe Marsh): A 1.4 GW / 3.1 GWh BESS being built on a former coal site. Copenhagen Infrastructure Partners (CIP): Two 500 MW / 3 GWh systems planned in Scotland.

What technologies are behind UK energy storage?

From mountainous pumped hydro to cutting-edge cryogenic and compressed air technologies, the UK is deploying a broad portfolio of energy storage solutions to ensure energy security, decarbonisation, and grid resilience. In this guide, we explore the most important and emerging technologies behind UK energy storage. 1. Pumped Hydro Storage:.

How many battery storage projects are there?

The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on Energy Storage shows there is 8.7GW of batteries in operation and under construction and more than 30GW projects have now been consented.

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE)

Energy storage projects under construction in the UK

UK pumped storage projects surge after 40 ...

If given, it would be one of the UK's largest energy storage projects, delivering £20 million annually to Highland communities over a ...

BESS: Storing Potential for the UK's Energy Future

The UK's BESS capacity is set to triple by 2030. Discover how battery storage is crucial for decarbonization, grid stability, and long-duration storage.

UK energy storage pipeline report 2024 , RenewableUK ...

The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on ...

Top 7 Commercial Battery Energy Storage Projects in UK 2025

Discover the biggest commercial battery storage UK projects in 2025, including NatPower's Teesside GigaPark, Statera's Carrington, RES's Coalburn etc.

National Wealth Fund News

Building on its strong track record of financing energy storage projects, the NWF's initial commitment of up to £200 million, alongside EIG's commitment, will also help finance ...

RWE granted consent for 180-MW UK solar project with storage

In the UK, RWE has 11 solar projects under construction and recently brought online its first UK solar site, Langford. Combined, these projects represent 577 MW of solar ...

UK pumped storage projects surge after 40-year gap

If given, it would be one of the UK's

largest energy storage projects, delivering £20 million annually to Highland communities over a 125-year lifespan. GEE says its proposal ...

7.6GW of UK battery energy storage systems to get pre ...

The research by UK independent power producer Root-Power identifies 173 BESS projects, with a combined capacity of 7.6GW, likely to benefit from changes designed to ...

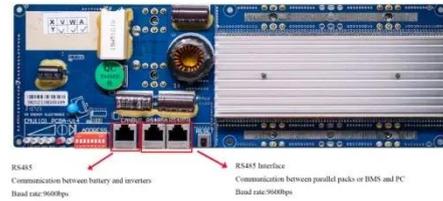

UK: over 17GWh of BESS due to connect to grid in 2025, ...

Around 19GWh of projects are currently under construction, accounting for 17% of approved projects. Despite it only being the start of the year, over 140MWh has already been ...

Top five energy storage projects in the UK

Listed below are the five largest energy storage projects by capacity in the UK,

according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...
