# Equipment container converted to solar power supply

## Overview

---

Which solar power systems are best for container conversions?

Solar Power Systems for Container Conversions. Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types.

Can you put solar power in a shipping container?

There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit. Well, not really cheated, but I just went with a retail solar generator system instead of DIYing that part myself from à la carte components.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

What can I do with a converted container?

We can supply and install a complete, turnkey renewable energy system to any converted container. It can include solar panels for generation, batteries for storage and everything required to deliver usable energy to the building. Systems will be easy to use, silent, efficient and be tucked out of the way so as not to interfere with daily life.
