# Ergopack battery

## Overview

---

Who should not use ergopack batteries?

- Only use batteries that are approved for your systems (original • ErgoPack battery). Persons with reduced physical, sensory or mental capabilities or lack
- of experience and knowledge must not use the battery and charger unless they are supervised or instructed to do so by a person responsible for their safety.

Is the ergopack strapping machine ergonomic?

The ErgoPack strapping machine is certified by the AGR seal of approval from the German Authority for healthy and ergonomic products. This certification highlights its commitment to ergonomic excellence. Our ergonomic strapping machine is designed to prioritise operator comfort while delivering secure, consistent strapping results.

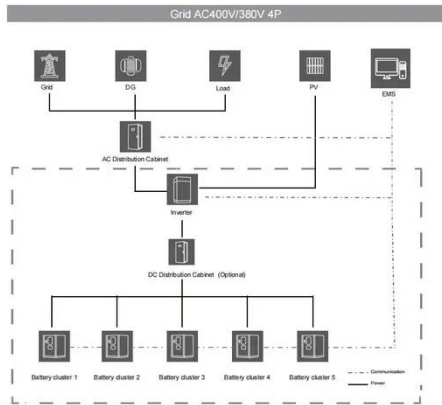

How does ergopack work?

Ergonomic, Easy, Efficient With ErgoPack's mobile ergonomic strapping machine, it is easy to strap pallets without the operator bending down or walking around the pallet. ErgoPack's patented chain lance system guides the strap below the pallet and feeds it back to the operator, removing the need to bend over or walk around the pallet.

How to charge ergopack dual 3 step battery pack?

Charge the battery pack only with the ErgoPack Dual-3-step charger through the blue socket! 5.) Put the plug (14) of the charger into the blue charging socket of the battery pack (7) as shown in Fig 10b by slanting to the lower left corner. Thereafter turn the plug clockwise by 45° as shown in Fig. Page 21 6.)
