

BLINK SOLAR

European Off-Network Supplier of Foldable Containers

Overview

What is a foldable large container?

Foldable large containers (also called: pallet boxes) are large collapsible containers adapted to Standard pallet footprints. They can be manufactured from wood or plastic. As a combination of container and pallet, pallet boxes often have runners. Due to the runners, operators can easily handle the large containers with fork lifts and lift trucks.

What makes Faltsysteme a successful reusable container company?

In 1978 WALTHER Faltsysteme folded the first reusable containers. Since then, our container specialists have been renowned as the experts in the foldable plastic box market. Our success is based on the right fold: whether lengthwise or crosswise, with a hinge or without. This is largely defined by our customers' requirements.

What is a 4fold foldable container?

The 4FOLD Foldable Container has been used on all modalities with different shipping lines all over the world. The European Union included the 4FOLD foldable container in the Horizon 2020 research and innovation program.

What is a foldable large container (FLC)?

HIGHLIGHTS The ORBIS Europe BulkPak® brand of foldable large containers (FLC) helps global automotive and industrial companies streamline part shipments across global supply chains. For increased transport efficiency, our FLC containers are stackable and collapsible with a return ratio of up to 1 : 3.
